

Diamond Disc

for Grinding & Hacking of Concrete

Chatur is a diamond disc, primarily focused on hard surfaces in the construction industry. **Chatur** has the capability to do finishing operation on a variety of material like

- Grinding of concrete surfaces to remove bulges, undulations, steps in form-work masonry
- Rendering or merging of between panel slurry flow in ceiling
- Hacking of columns and structures to prepare surfaces for plastering
- Chamfering, forming of full and half radius in granite
- Grinding / Chamfering / Finishing of marble edges while laying

Features

- No clogging on the disc - hence long lasting
- Faster working on any material - Reduces work time
- Reduces operator fatigue in difficult applications like Hacking / Grinding concrete surfaces
- No use of segments. Elimination of accidents / damages due to segments pull outs

Specifications

Diameter	Bore	Type of Disc	Suitable for
100 mm OD	20 mm	DC - Wheel	100 mm Angle Grinder
115 mm OD	22.23 mm	DC - Wheel	125 mm Angle Grinder
125 mm OD	22.23 mm	DC - Wheel	125 mm Angle Grinder

Chatur is a new technology product - only of its kind manufactured in India, where Diamond abrasive grains are directly fused on top of metal surface.
